PROFESSIONAL EXPERIENCE

Ernst & Young, Gurugram, IN

Feb 2024 — Present

Full-Stack Developer

- · Working with payment team for integration of loan disbursement of NBFC company
- Led collaboration between engineering and product teams, reducing feature delivery time by 15%, increasing user engagement by 30%.
- Commanded the charge on 5 projects, delivering ahead of schedule, resulting in a 25% bug reduction
- · Harnessed AI sorcery, conjuring a 40% boost in data processing efficiency and annual cost savings.
- · Led the migration of monolithic architectures to microservices-based cloud solutions, enhancing reliability and reducing downtime by 30%
- Deployed Large Language Models (LLM) algorithms, amplifying accuracy by 95% and efficiency by 20%.
- · Designed and optimized microservices architecture, reducing API response time by 40% and scaling to 1M+ requests per day.
- Engineered fault-tolerant distributed caching mechanisms with Redis and Kafka, reducing API response times
- · Built and optimized real-time data streaming services handling millions of events per second.
- · Experience in building microservices with .NET Core and deploying on Kubernetes

LTI Mindtree, Chennai, IN

Oct 2021 — Jan 2024

Full Stack Developer

- Proficient in C#, Angular, Git, Azure, and SQL Server, contributing to a 30% reduction in project development time through streamlined technology utilization.
- Implemented automated testing frameworks, reducing testing time by 20% and improving test coverage.
- Enhanced user efficiency with Drag & Drop API creation, resulting in a 30% increase in productivity.
- Increased client satisfaction by 11.99% through personalized service and technical proficiency.
- · Conducted performance tuning exercises, optimizing database queries and improving system responsiveness by 50%, resulting in a smoother user experience and increased customer satisfaction.

EDUCATION

Bharati Vidyapeeth University, Pune, IN

June 2021

Bachelor of Technology (B. Tech) Major in Computer Science

- Developed a scalable recommendation engine, improving personalization by 20% in final-year project.
- Ranked top 5% in Algorithms & Data Structures coursework.

SKILLS

- C#
- · Critical Thinking
- Dot Net Core
- Git
- React

- · Data Structures
- Azure
- ¡Query ISX
- · Angular/React JavaScript
- · SQL Server
- AIAX

- · Algorithms
- · Typescript
- · System Design
- Postman
